If standard is N/A then there is no standard for that parameter at that site

If there is a RED Average Annual and Yes then the standard has been exceeded

If Average Annual is blank then no values were reported that year

If the parameter value is a non detect, 1/2 the detection limit is used in the Average Annual.

If the value is a detect, the value itself is used in the Average Annual

Average Annual Standards Exceeded and Not Exceeded Report for 01/08/1997 to 12/22/2003

If standard is N/A then there is no standard for that parameter at that site

If there is a RED Average Annual and Yes then the standard has been exceeded

If Average Annual is blank then no values were reported that year

If the parameter value is a non detect, 1/2 the detection limit is used in the Average Annual.

If the value is a detect, the value itself is used in the Average Annual

If standard is N/A then there is no standard for that parameter at that site

If there is a RED Average Annual and Yes then the standard has been exceeded

If Average Annual is blank then no values were reported that year

If the parameter value is a non detect, 1/2 the detection limit is used in the Average Annual.

If the value is a detect, the value itself is used in the Average Annual

Average Annual Standards Exceeded and Not Exceeded Report for 01/08/1997 to 12/22/2003

If standard is N/A then there is no standard for that parameter at that site

If there is a RED Average Annual and Yes then the standard has been exceeded

If Average Annual is blank then no values were reported that year

If the parameter value is a non detect, 1/2 the detection limit is used in the Average Annual.

If the value is a detect, the value itself is used in the Average Annual

If standard is N/A then there is no standard for that parameter at that site

If there is a RED Average Annual and Yes then the standard has been exceeded

If Average Annual is blank then no values were reported that year

If the parameter value is a non detect, 1/2 the detection limit is used in the Average Annual.

If the value is a detect, the value itself is used in the Average Annual

If standard is N/A then there is no standard for that parameter at that site

If there is a RED Average Annual and Yes then the standard has been exceeded

If Average Annual is blank then no values were reported that year

If the parameter value is a non detect, 1/2 the detection limit is used in the Average Annual.

If the value is a detect, the value itself is used in the Average Annual
